

A Resolution for opposition to any proposal to place municipally owned and operated utilities under state jurisdiction. Namely, Study Proposal No. 23.

Whereas, Proposal No. 23, Municipal Water-Electric & Gas Systems of Kansas, does come up before the joint Senate/House special committee on energy on October 13, 1977.

Whereas, the City of Pawnee Rock, Kansas, does hereto oppose any state legislative or administrative action subjecting such utilities to state regulation. We believe the operation and control of municipally owned utilities, including charges, delinquency penalties and deposit interest, should be subject to local control.

Whereas, the City of Pawnee Rock, Kansas does hereby wish to keep the supervision, direction and management of their utilities under their own local governing body consisting of mayor and five councilmen.

This Resolution passed this 3rd day of October, 1977.
